

Muhammad Hammad

Senior Flutter Developer

Lahore 54700 54700

hammadansari234@gmail.com

+92 310 6883027

Software Engineer with expertise in mobile application development and a focus on Flutter for cross-platform solutions. Experienced in adhering to clean coding standards and best practices, ensuring UI/UX consistency with modern, responsive designs. Proficient in optimizing app performance for both Android and iOS, with a solid understanding of version control workflows using Git/GitHub. A collaborative team player, adept at working with designers, backend engineers, and product managers to deliver high-quality applications. Skilled in integrating REST APIs and enabling real-time features, enhancing user interaction through innovative solutions.

Willing to relocate to: Remote - Multan - Lahore

Work Experience

Senior Flutter Developer

Simplitaught-Lahore

January 2024 to Present

- Leading development of Mingle, a product-based mobile application, focusing on auto check-in/check-out, real-time user matching, and in-app communication.
- Building scalable, cross-platform mobile apps using Flutter & Dart, ensuring responsive UI/UX and smooth performance across iOS and Android.
- Implementing state management (Riverpod/GetX/Provider), clean architecture, and reusable components to improve maintainability.
- Integrated REST APIs, Firebase (Authentication, Firestore, Cloud Messaging), and third-party SDKs for advanced app features.
- Responsible for Play Store and App Store deployment, including app signing, build configurations, release management, and resolving store compliance issues.
- Collaborating with design, backend, and QA teams in a Scrum environment to deliver high-quality, user-focused features.
- Performing debugging, testing, and performance optimization to ensure app stability, fast load times, and minimal crashes.

Flutter Developer

Rex Technologies-Lahore

September 2023 to December 2023

- Developed and maintained cross-platform mobile applications using Flutter and Dart, ensuring high performance and responsive UI across iOS and Android.
- Implemented state management solutions (Provider/GetX/Bloc) to streamline app architecture and improve scalability.
- Integrated RESTful APIs, Firebase (Authentication, Firestore, Push Notifications), and third-party libraries for seamless app functionality.
- Collaborated with designers and backend developers to translate requirements into user-friendly and feature-rich applications.
- Conducted testing, debugging, and performance optimization to reduce crashes and improve app stability.

- Published builds for internal testing and client delivery, ensuring timely project releases.

Flutter Developer

GhairMulki Software House (Pvt.) Ltd.-Multan

July 2022 to August 2023

- Designed, developed, and deployed cross-platform mobile applications for iOS and Android using Flutter and Dart.
- Built responsive UI/UX with reusable widgets, animations, and state management (Provider/GetX/Bloc).
- Integrated RESTful APIs, Firebase services (Authentication, Firestore, Cloud Storage, Push Notifications), and third-party SDKs.
- Optimized app performance by reducing app load time, improving memory management, and ensuring smooth navigation.
- Implemented authentication, real-time updates, and offline support to enhance user experience.
- Collaborated with cross-functional teams (designers, backend engineers, QA) in an Agile/Scrum environment to deliver scalable solutions.
- Published and maintained apps on the Google Play Store and Apple App Store, handling versioning and bug fixes.
- Utilized Git/GitHub for version control and followed best practices for clean code, testing, and documentation.

Education

Computer Engineering (Graduation)

Bahaudin Zakariya University, Multan-Multan

August 2019 to July 2023

Pre-Engineering (F.Sc.)

Britain International Colleges Network-Multan

August 2016 to August 2018

Skills

- API Integration (3 years)
- Node JS (Less than 1 year)
- Flutter App Developement (3 years)
- FLASK (Less than 1 year)
- Python (Less than 1 year)
- Firebase (3 years)

Languages

- Urdu - Native
- English - Fluent

Awards

Prime Minister Youth Program

September 2018

Punjab Educational Endowment Fund(PEEF)

August 2016

Certifications and Licenses

Artificial Intelligence & Machine Learning

September 2021 to Present
