PROFESSIONAL SUMMARY

Senior Flutter Developer with 3+ years of experience building high-performance cross-platform mobile applications for iOS and Android. Proven track record shipping 15+ production apps to Google Play Store and Apple App Store with an average 4.8-star rating. Expert in Dart, Flutter, clean architecture, scalable state management (Provider, Bloc, Riverpod, GetX), Firebase, REST API integration, payment processing (Stripe, Apple Pay, Google Pay), and AI-assisted development workflows. Currently leading mobile development at Value Growth Advisory, a Kuwait-based advisory firm.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, iOS, Android, Cross-Platform Development, Widget Development, Custom Animations, Platform Channels, Material Design, Cupertino Design

Architecture & State Management: Clean Architecture, MVVM, Provider, Bloc, Riverpod, GetX, MobX, Code Architecture, Performance Optimization

Backend & Cloud: Firebase, Firestore, Cloud Functions, Firebase Authentication, Cloud Messaging, Analytics, Crashlytics, REST APIs, GraphQL, WebSocket, FastAPI, Node.js, Google Cloud

Mobile Features & Integrations: Push Notifications, In-App Purchases, Payment Integration, Stripe, Apple Pay, Google Pay, Geolocation, Geofencing, Google Maps, Radar.io, Deep Linking, Socket.io, WebRTC

Data & Storage: SQLite, Hive, Drift, Isar, Shared Preferences, Dio, HTTP

DevOps & Publishing: Google Play Store, Apple App Store, App Store Optimization, Xcode, Android Studio, CI/CD, Docker, Git, Agile Methodology

AI-Assisted Development: AI-Assisted Development, Cursor IDE, GitHub Copilot, Claude, ChatGPT, Prompt Engineering, Gemini AI

Testing & Quality: Unit Testing, Widget Testing, UI/UX Design, Figma, Responsive Design

PROFESSIONAL EXPERIENCE

Senior Flutter Developer

Value Growth Advisory | Pakistan (Remote) | June 2026 – Present

- Lead end-to-end mobile application development for a Kuwait-based advisory firm, architecting cross-platform Flutter apps for iOS and Android with clean architecture and scalable state management.
- Shipped 7+ production applications to Google Play Store and Apple App Store including Khayr (AI Health Companion), Mingle (Social/Nightlife), Waiz (Healthcare Booking), Compass Travels, Ezhalha, MHN, and Alaaf National.
- Integrated Firebase, Firestore, REST APIs, Stripe, Apple Pay, Google Maps, geofencing (Radar.io), Gemini AI, and in-app purchases across consumer and enterprise mobile products.
- Established mobile development best practices including CI/CD pipelines, code review standards, and accessible UI/UX patterns for production-grade releases.

Technologies: Flutter, Dart, Firebase, Firestore, REST APIs, Stripe, Google Maps, Gemini AI, State Management, CI/CD, iOS, Android

Senior Flutter Developer

Simplitaught | Lahore, Pakistan | January 2024 – May 2026

- Led development of enterprise mobile applications using Flutter framework for iOS and Android platforms serving business and education clients.
- Architected and delivered cross-platform apps with Firebase backend integration, Firestore database, Stripe payment processing, and Google Cloud services.
- Mentored junior Flutter developers on mobile app architecture, state management patterns, and Flutter best practices to improve team delivery velocity.

- Implemented Docker-based development workflows and maintained high code quality through unit testing, widget testing, and performance optimization.

Technologies: Flutter, Dart, Firebase, Firestore, Stripe, Google Cloud, Docker, REST APIs, State Management

Flutter Developer

Rex Technologies | Lahore, Pakistan | September 2023 – December 2023

- Developed and maintained multiple Flutter mobile applications for e-commerce and EdTech clients with full lifecycle ownership from design to deployment.
- Successfully published applications on both Google Play Store and Apple App Store, meeting platform compliance and App Store Optimization requirements.
- Collaborated with cross-functional teams including designers, product managers, and backend engineers to deliver high-quality mobile solutions on schedule.
- Integrated Firebase services, REST APIs, push notifications, and payment gateways into production mobile applications.

Technologies: Flutter, Dart, Firebase, REST APIs, Xcode, Android Studio, Google Play Store, Apple App Store

Flutter Developer

GhairMulki Software House | Multan, Pakistan | July 2022 – August 2023

- Built responsive cross-platform mobile applications using Flutter with custom UI components and Material Design implementation.
- Integrated REST APIs and Firebase backend services to deliver feature-rich mobile experiences for diverse client projects.
- Worked closely with UI/UX designers to translate Figma designs into pixel-perfect, performant Flutter interfaces.
- Published multiple applications on Google Play Store with positive user feedback and stable production performance.

Technologies: Flutter, Dart, Firebase, REST APIs, Material Design, Google Play Store

KEY PROJECTS

Khayr – AI Health Companion | 2025 – Present

- Built AI-powered health companion app with Gemini AI symptom checker, personalized health assessments, and in-app purchases; rated 5.0 stars on Google Play.
- Technologies: Flutter, Dart, Firebase, Firestore, Gemini AI, In-App Purchases, iOS, Android.
- Google Play: <https://play.google.com/store/apps/details?id=com.keybotix.khayr>
- App Store: <https://apps.apple.com/us/app/khayr-ai-health-companion/id6749851886>

Mingle – Social & Nightlife App | 2025

- Developed social discovery app with automatic venue check-in/out via geofencing, in-app wallet, Stripe and Apple Pay payments, and real-time activity tracking.
- Technologies: Flutter, Firebase, Radar.io, Geofencing, Google Maps, Stripe, Apple Pay.
- Google Play: <https://play.google.com/store/apps/details?id=com.app.mingle>
- App Store: <https://apps.apple.com/app/mingle-social-app/id6737700806>

Waiz – Healthcare Appointment Booking | 2025

- Created healthcare booking platform enabling patients to search doctors by specialty, book appointments, and manage visit history with push notification reminders; 500+ downloads.
- Technologies: Flutter, Dart, REST APIs, Push Notifications, Scheduling, Reviews.
- Google Play: <https://play.google.com/store/apps/details?id=com.waizapp>

Compass Travels – Travel Booking | 2025

- Built all-in-one travel companion for flights, hotels, rental cars, and travel supplies with secure payment integration and real-time booking notifications.
- Technologies: Flutter, Dart, REST APIs, Payments, Maps, Push Notifications.
- Google Play: <https://play.google.com/store/apps/details?id=com.compasskuwait.store>

Ezhalha – Store Management Platform | 2025

- Developed business management app with store profiles, wallet balances, transaction history, and customer review monitoring dashboards.
- Technologies: Flutter, Dart, REST APIs, State Management, Dashboards.
- Google Play: <https://play.google.com/store/apps/details?id=com.vga.azhelha>

MHN – Creative Marketplace | 2025

- Built location-aware marketplace connecting users with artists and designers via category browsing, portfolio profiles, and direct WhatsApp/call integration.
- Technologies: Flutter, Dart, Firebase, Geolocation, REST APIs, Deep Linking.
- Google Play: <https://play.google.com/store/apps/details?id=com.vga.mehn>

Alaaf National – E-Commerce | 2025

- Developed animal feed e-commerce application with product catalog, cart, checkout, and secure payment processing for livestock owners.
- Technologies: Flutter, Dart, REST APIs, E-Commerce, Cart and Checkout, Payments.
- Google Play: https://play.google.com/store/apps/details?id=com.vga.national_feed_vga

EDUCATION

Bachelor of Science in Computer Engineering

Bahauddin Zakariya University | Multan, Pakistan | 2019 – 2023

Specialization in Software Engineering and Artificial Intelligence. GPA: 3.6/4.0. Coursework in algorithms, data structures, software development principles, and artificial intelligence.

CERTIFICATIONS

- Flutter Development Certification – Google (2024)
